Patent Cooperation Treaty (PCT) Update

Change in Location of PCT International Services Division

The PCT International Services Division of the Office of Patent and Trademark Services is scheduled to move from Crystal Plaza 2, Room 7A04, to Crystal Plaza 6, 12th floor, in February 1988. It is anticipated that some disruption in service may result, such as in the ability of the Division to immediately forward corrections of informalities under PCT Article 14 to the International

Bureau. Applicants are urged to promptly submit responses to invitations to correct Article 14 defects which are due during the first quarter of calendar 1988, as delay could cause the correction not to reach the International Bureau in time for international publication.

Applicants are reminded that technical preparations for publication are completed by the International Bureau before 15 days prior to international publication and that registered air mail takes approximately five working days to reach the International Bureau from the United States.

Moreover, applicants are cautioned that if a response to an invitation to correct an Article 14 informality is joined together with a request for rectification of an obvious error under PCT Rule 91, the rectification may require the authorization of the International Searching Authority, thus somewhat delaying the forwarding of the response to the International Bureau. Also, any PCT Rule 91 correction must be authorized prior to the expiration of 17 months from the priority date [PCT Rule 91(g)].

In cases in which there may be a question under PCT Article 11 as to whether or not an international application may be accorded an international filing date, in order to prevent possible loss of rights under the Paris Convention, applicants are urged during the first quarter of calendar 1988 to submit international applications to the United States Receiving Office before the end of the priority year under PCT Article 8. If an international filing date under Article 11 cannot be accorded and the priority year has expired, applicant's rights under the Paris Convention may be lost.

The mailing address and telephone number of the PCT International Services Division will remain the same:

Commissioner of Patents and Trademarks
Box PCT
Washington, D.C. 20231

Area Code 703, 557-2003.

Assistance of applicants during the period of the move will be greatly appreciated.

THERESA A. BRELSFORD,
Dec. 23, 1987. *Assistant Commissioner for Administration.*

Title 37, Code of Federal Regulations, Section 1.362(d), effective Nov. 1, 1984, provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on applications filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(k) or (l), as amended effective Oct. 5, 1985. If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the grant.

Section 1.20 paragraph (m) as amended as a result of enactment of Public Law 98-622 effective Nov. 8, 1984, is reproduced below:

"(m) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee where the delay in payment is shown to the satisfaction of the Commissioner to have been unavoidable . . . . . $ 500.00"

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

HELPFUL HINTS

- *Trademark Post Registration Helpful Hints — Section 8 Affidavit or Declaration Held Insufficient During Post Registration Examination* — The Trademark Act of 1946, Section 8(a) was amended Aug. 27, 1982, Public Law 97-247 (96 Stat. 317), to clarify that the continued use required to be shown in the sixth year under Section 8(a) be use "in commerce." Subsequently the Trademark Rules were amended on Jan. 28, 1983 (48 *Federal Register* 3977), to require that all Section 8(a) affidavits or declarations "state that the registered mark is in use in commerce and specify the nature of such commerce." [37 C.F.R. Section 2.162(e)].

  Some applicants under Section 8(a) are not complying with the requirements that the affidavit or declaration state that the mark is in use "in commerce," and "specify the nature of such commerce." The Office cannot accept an affidavit under Section 8(a) which does not comply with the Act and, if the defect is not corrected before the end of the sixth year, the registration in question will be canceled.

  While the Post Registration Division will allow up to six months to respond to a letter from the Office, a supplemental or substitute affidavit or declaration required by Section 8(a) will not be considered unless it is received before the expiration of the six year anniversary of the registration. It is suggested that registrants file Section 8(a) applications as early as possible between the fifth and sixth year following registration to allow time to submit an affidavit or declaration which is correct, if required.

  Signatures — The corporate title of the affiant/declarant is often missing. Occasionally, the affidavit/declaration is unsigned.

  Assignments — It will speed up the processing of Section 8 affidavits and renewal applications if the affiant/declarant will furnish the reel and frame number and the date(s) of recordation with the USPTO Assignment Section of any relevant assignment, merger, change of name, or other transfer.

  Fees — Many of the affidavits and applications for renewal contain insufficient fees. The fee schedule for these transactions done in the Post Registration area is listed below:

(a) For filing an application for renewal of a registration, per class $300.00
(b) For filing an affidavit under Section 8 of the Act, per class $100.00
(c) For filing an affidavit under Section 15 of the Act, per class $100.00
(d) For filing a combined affidavit under Sections 8 and 15 of the Act, per class $200.00

- *Avoiding Delays in Assignments for New Patent Applications* — The automated patent assignment system is dependent upon bibliographic information that is keyboarded to produce filing receipts and to create records in the PALM system. When assignments are filed before the filing receipt has been produced, their processing is delayed until the bibliographic information is keyed and vertified. Applicants should wait to file assignment documents for new patent applications until the filing receipt is produced to avoid delays.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries, receive current issues of U.S. Patents and maintain collections of earlier issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections are open to public use and each of the Patent Depository Libraries, in addition, offers the publications of the U.S. Patent Classification System (e.g. The Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions, etc.) and provides technical staff assistance in their use to aid the public in gaining effective access to information contained in patents. With one exception, as noted in the table following, the collections are organized in patent number sequence.

Facilities for making paper copies from either microfilm in reader-printers or from the bound volumes in paper-to-paper copies are generally provided for a fee.

Owing to variations in the scope of patent collections among the Patent Depository Libraries and in their hours of service to the public, anyone contemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours, so as to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
